Ch

Date : 2018.02.08

Legislative : 1.Promulgated on February 8, 2018

Content : Subject: "Foreign specialist personnel with special expertise in science & technology" has been announced and shall take effect on the implementation date of the Act for the Recruitment and Employment of Foreign Professionals.
Basis: Article 4, Paragraph 1, Subparagraphs 2 of the Act for Recruitment and Employment of Foreign Professionals
Notice:
Foreign Special Science and Technology Professionals (FSSTPs) must meet at least one of the following conditions:

Article 1
The applicant has held, or currently holds, a position with a most recent monthly salary of over NTD 160,000 in Taiwan or another country.

Article 2
Those with unique talents or outstanding R&D ability or innovation performances in such cutting-edge technological fields as software applications, software technology, nanotechnology, optoelectronics, information and communication, communication transmission technology, automation system integration technology, material application technology, high precision sensing technology, biological technology, resources development or energy saving, frontier scientific research, and national defense and military strategies.

Article 3
Those with unique talents, outstanding R&D ability or innovation performances in forward-looking technologies such as AI, IoT, AU, blockchain, VR, robots, and additive manufacturing.

Article 4
Nobel laureates, Tang Prize recipients, Wolf Prize recipients, Fields Medal recipients, or recipients of other internationally-recognized awards at an equivalent level.

Article 5
Academician at a national academy of sciences or scholar at an equivalent national level.

Article 6
The applicant has currently or has previously been a university chair professor, professor, associate professor, or research institution researcher or associate research researcher, has important academic contributions or important professional works, or has earned recognition for published research results during the most recent three years.

Article 7
Those who have received a Ph.D. degree and have continued to practice in their professional field, or who perform research at research institutions, or who perform technology research and development or management at institutions of science and technology for more than four years.

Article 8
Those who have special expertise or perform science and technology research and development or management work at institutions of science and technology, and whose distinctive abilities are very uncommon both in Taiwan and abroad.

Article 9
Holders of a Ph.D. degree who possess special expertise that is lacking in Taiwan.
